PROFESSIONAL SUMMARY

Kevin Kipkoech Kimutai is a highly motivated and passionate Software Engineering student at the University of Eastern Africa Baraton with a strong background in software development, artificial intelligence, and modern web technologies. He possesses both front-end and back-end development skills and has practical experience working with AI data annotation, machine learning dataset preparation, backend systems, and scalable web application development. Kevin has developed a strong interest in emerging technologies such as Artificial Intelligence, Large Language Models (LLMs), machine learning systems, and function calling architectures used in modern AI applications. He is constantly exploring innovative ways technology can be used to solve real-world challenges affecting businesses and communities. As the founder of Hauzral Technologies, a growing technology startup based in Eldoret, Kenya, Kevin has demonstrated leadership, creativity, and entrepreneurial thinking. Through his startup, he aims to create scalable digital solutions, intelligent software systems, and AI-powered technologies that can contribute to the growth of businesses and the digital transformation of society.

He is a fast learner with strong analytical thinking abilities, excellent attention to detail, and a deep passion for continuous learning and professional growth. Kevin enjoys working on challenging projects, collaborating with teams, and building systems that are efficient, secure, user-friendly, and impactful.

EDUCATION

Bachelor of Science in Software Engineering

University of Eastern Africa Baraton

Expected Graduation: 2026

Kevin is currently pursuing a Bachelor's degree in Software Engineering where he has gained knowledge and practical skills in software design, system analysis, database management, web development, programming, software architecture, and artificial intelligence concepts.

Secondary Education

St. Peter's Marakwet High School

Grade Attained: B

During his secondary school education, Kevin developed strong analytical and problem-solving abilities which contributed to his passion for technology and engineering-related fields.

Primary Education

Salaba Academy

Grade Attained: B+

Kevin demonstrated academic discipline, consistency, and determination from an early age, building a strong educational foundation that supported his later achievements in technology and software engineering.

CERTIFICATIONS

Kevin has completed and gained knowledge in several technical and software development areas including:

- Front-End Software Development

-
- Back-End Software Development
-
- Java Programming Certification
-
- Bootstrap Frontend Framework
-
- React.js Development
-
- Angular Development
-
- Vue.js Development
-
- Python Programming
-
- SQL Database Management
-
- MongoDB NoSQL Database
-
- PHP Web Development
-
- Machine Learning Fundamentals
-
- Kotlin Mobile Development
-
- R Programming for Data Analysis
-
- Dart Programming and Flutter Development
-

These certifications have strengthened his technical abilities and expanded his understanding of both software engineering and modern development technologies.

TECHNICAL SKILLS

Programming Languages

Kevin has practical knowledge and development experience using:

- Python
-
- Java
-
- JavaScript
-
- C++
-
- PHP
-
- Kotlin
-
- R Programming
-
- Dart
-

Web Development Technologies

He is experienced in building responsive and scalable web applications using:

- HTML5
-
- CSS3
-

- Bootstrap
 -
 - React.js
 -
 - Angular
 -
 - Vue.js
 -
 - Node.js
 -
 - Express.js
 -
-

Databases

Kevin has worked with both relational and non-relational databases including:

- MySQL
-
- MongoDB
-

He understands database design principles, data modeling, query optimization, and backend integration.

Development Tools & Technologies

Kevin uses modern development tools and workflows such as:

- Git
-
- GitHub
-
- Visual Studio Code
-
- REST APIs
-
- Postman
-

He is familiar with version control systems, API testing, collaborative software development, and backend service integration.

AI & DATA EXPERIENCE

Kevin has practical experience working with AI data annotation and machine learning data preparation processes. His work has involved image labeling, text classification, dataset validation, data cleaning, and ensuring dataset consistency for machine learning model training.

He has dedicated significant time to improving dataset quality and maintaining high annotation accuracy according to strict project guidelines and standards. Through this experience, he developed strong attention to detail, patience, and analytical thinking skills which are critical in artificial intelligence workflows.

In addition, Kevin has gained knowledge in modern AI concepts including:

- Large Language Models (LLMs)
-
- AI system architecture
-
- Function calling in AI systems
-
- Machine learning workflows
-
- AI automation concepts
-

He continues to expand his understanding of artificial intelligence technologies and is passionate about contributing to AI-driven innovations and intelligent systems.

PROJECT EXPERIENCE

Full-Stack Web Application Development

Kevin developed responsive and scalable web applications using React.js, Node.js, Express.js, and MySQL databases. He worked on both frontend and backend functionalities, including authentication systems, API integration, and database management.

Backend API Development

He designed and implemented backend services and RESTful APIs using Express.js and Node.js. His work included optimizing database queries, improving performance, and ensuring secure communication between systems.

AI Data Labeling Project

Kevin participated in AI dataset annotation projects where he categorized, labeled, and validated datasets used for machine learning training. His work contributed to improving data quality and supporting AI model performance.

STARTUP EXPERIENCE

Founder – Hauzral Technologies

Eldoret, Kenya

Kevin is the founder of Hauzral Technologies, a technology startup focused on software development, AI systems, digital transformation, and innovative technology solutions.

The company aims to develop scalable and impactful software products for businesses and organizations while promoting technological innovation in Kenya and beyond.

Through Hauzral Technologies, Kevin has continued building experience in:

- Software engineering
 -
 - Startup leadership
 -
 - Product development
 -
 - Technology innovation
 -
 - Business problem solving
 -
-

SOFT SKILLS

Kevin possesses strong professional and interpersonal skills including:

- Analytical Thinking
-
- Problem Solving
-
- Attention to Detail
-
- Communication Skills
-
- Team Collaboration
-
- Time Management
-
- Adaptability
-
- Leadership and Entrepreneurship

- - Creativity and Innovation
 -
-

CAREER OBJECTIVE

Kevin aims to secure a challenging opportunity in software engineering, AI development, or backend systems engineering where he can apply his technical skills, software development experience, and knowledge of artificial intelligence technologies.

He is passionate about contributing to innovative projects, solving real-world challenges through technology, and continuously improving his professional and technical capabilities while working in dynamic and growth-oriented environments.
